9 :00-9 :15 Welcome address:

Moderator: Margarida Tomé, Professor ISA, Lisbon

9 :00-9 :15 Béatrice Gendreau, Regional Councillor New Aquitaine region

9:15- 11:30 Session 1 | PLURIFOR Project: Main results and an overview of the developed solutions

- Forest fire risk
- Emerging pests and diseases risk
- Pinewood nematode risk
- Soil degradation risk
- Q&A
- Pine pitch canker risk
- Eucalyptus weevil risk
- Chestnut gall wasp risk
- Forest storm risk
- Silvalert app for reporting forest damage
- Q&A

11:30-12:00 Coffee break

12:00- 13:15 Session 2 | Testimonials from forest stakeholders. PLURIFOR project: what added value to current forest risk management practices?

Moderator: Leire Salaberria, USSE & Vice President IEFC

- Contributions of the project to the pinewood nematode risk management in France (Emmanuel Kersaudy, DRAAF)
- Contributions of the project to the storm risk management in France (Philippe Lacombe, DRAAF)
- Contributions of the project to forest risks management in New Aquitaine (Gaëlle Burlot, Caisse Phytosanitaire)

With the support of:

An Roinn Talmhaíochta,
 Bia agus Mara
 Department of Agriculture,
 Food and the Marine

- Contributions of the project to the storm risk management in the Basque country (Carlos Uriagereka, Provincial Council of Bizkaia)
- Contributions of the project to forest risk management in Galicia (Pablo Arbones Maciñeira, Seaga)
- Contributions of the project to forest risk management in Portugal (Conceição Santos Silva, UNAC)
