## Call for Expert *Cross-Viewing* Meeting of the Chestnut Gall Wasp *Dryocosmus kuriphilus*

Friday 25 January 2019

Instituto Politécnico de Bragança

The PLURIFOR project (Transnational risk management plans for rural forest areas susceptible to biotic and abiotic risks) is organizing a meeting of Portuguese and Spanish experts on the Chestnut Gall Wasp (*Dryocosmus kuriphilus*), that will take place at 10 AM of January 25<sup>th</sup>, on the premises of the Instituto Politécnico de Bragança.

The meeting is part of the Project's **Working Package 3** and the agenda includes the presentation and evaluation of the Risk Management Plan for this pest, with the discussion of its strengths and weaknesses.

Organized by: Edmundo Sousa ([edmundo.sousa@iniav.pt](mailto:edmundo.sousa@iniav.pt))  
Frederico Preza ([frederico.preza@iniav.pt](mailto:frederico.preza@iniav.pt))

Instituto Nacional de  
Investigação Agrária e  
Veterinária, I.P.
